It must be nice to have a newspaper wherein you can print so very many lover articles about yourself and all the bad and naughty things about your opponent. The say—A CHILD WITH A GUN IS DANGEROUS—SO IS A CANDIDATE WITH NEWSPAPER.) I merely want to remind the citizens of Hancock County that the Ed and I have never seen eye to eye politically—I have always opposed his manner of eration. I have at all times fought back at him whenever he was wrong, and I have no at any time approved of his steam-rolling tactics—in those days you will remember.

Editor: (A MIGHTY MAN WAS HE) My fight against him and his method of opens were in the interest of the taxpayers, although it took several years, I finally broke this political organization. It might be mentioned here, that it is needless for candidate to say that they will not be controlled by a political organization as there is noted. the help of few people and later the voters, we have already abolished this organ

So— it can well be expected that now with revenge in his heart, he will try to the score. He has nothing to lose—and everything to gain—and remember he does to sell his newspaper. I hold no malice against this ex-political leader—I even a with him that he is EXPERIENCED & CAPABLE, and had he utilized his given all in a PROGRESSIVE DIRECTION, he might still be the political leader in Hand County. The Editor mentions that Beat 5 will have one hundred & twenty thousand lars to be expended during the next four years. He is almost correct—but there even be more than this stated amount. Now if the citizens will refer to the cou Records, they will realize that the disbursements of these funds will undoubtedly better results under my supervision than his.

In seeking re-election, I am doing so on my past record and if successful into elected, I will be in a position to assist in keeping the financial records of the in the condition they are now in. Also, I would like to complete certain plans the now in progress such as completion of repairing the beach seawall and road in tinue negotiations in securing Federal and State Aid for the new Hospital, Health ter and sand beach. To hard surface Washington Road from the city limits inc. Edwardsville intersecting Kiln Road. Also, the road from Waveland bordering the road to Clermont Harbor the lower Bay Road intersecting, Lakeshore's hard sur road at the school. Also, to work for hard surfacing all other streets and highway encourage industry and to promote this coastal area as a resort center. To keep County on a sound economic basis by not issuing unnecessary bonds and median obligations on hards and resort that the school area area as a resort center. obligations on bonds and interest at they become due and not to increase large

MY PLATFORM IS ONE OF TRUTH AND FACTS NOT WILD FARFER PROMISES—such as promising hundreds of jobs at higher wages—building lion dollar sand beach—without any consideration through what method this may be raised. We all want improvements but we do not want to triple our taxes heavy bond issues. All these promises might be sincere in the belief of a candidate of the promises might be sincere in the belief of a candidate of the promises might be sincere. his anxiety to be elected, but they certainly lack the wisdom through which the the financing will be arranged. I am making no such promises, but certainly all I can within my power to bring into realization any and everything that is hoppossible to make this County a place that the citizens will be proud of. I believe that the citizens will be proud of. one realizes that the September 1947 hurricane was a terrible setback to our administration of January 1948. With the damages that put the seawall fund in debt as well as the industry. debt, as well as the indebtedness we inherited, it was quite an obstacle to open. But even with this extra expense we have paid all of these debts, we have equipment—our roads are in better condition than they ever were—the seawall though not completely remained better condition than they ever were—the seawall though not completely remained better. though not completely repaired, has been put in comparable good condition will ride over the road you will wonder what all the fuss is about—Town Marshall Bourgeois will tell you of the condition that the fuss is about—Town Marshall Bourgeois will tell you of the condition that the fuss is about—Town Marshall Bourgeois will tell you of the condition that the fuss is about—Town Marshall Bourgeois will tell you of the condition to the condition of the condition to the condition of the condition of the condition to the condition of the condition o Bourgeois will tell you of the hard job he has keeping down the speeders. Oil of speeders of the hard job he has keeping down the speeders. If the public will review the minutes and Claim Docket, they will see that the actions as flect the actions of a sincere, energetic, honest and conservative administration

In the near future, I am going to furnish the public with an authentic read the achievements accomplished in the past three and one half years. ### DRAFTEES MAY ASK FOR MARINE DUTY

Jackson, Miss.—"Young men who have received their pre-induction notice from their draft boards may volunteer for the Marine Corps during the period of June 15 to July 15," it was announced by Marine Major P. C. Trammell, officer in charge of Marine Corps Recruiting in Mississippi.

This is a major change in policy for the Marines. Prior to the new order only men who had not received preinduction notices could be accepted for enlistment. Except in the cast of students who had been deferred to complete their education.

Major Trammell emphasized that, the new order would only be in effect

to give something to life, instead of trying to take something, there would not be any need to debate the virtues of capitalism and communism.
